MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM: Director of Central Intelligence

The President has created a commission, chaired by Peter Grace, to look for greater economies and efficiencies in the operation of the federal government. He will work through all the departments of government apparently coming up with important recommendations based on utilization of advanced business methods and practices. I think we leave ourselves in a vulnerable position not having taken a similar look at our DDA and other relevant support activities. I'd like your ideas on this.

William J. Casey
